I strongly oppose the changes planned for

1) Dogs onleash along Taylor River

- Burleigh Bridge → Stuart St
- Doctors Creek → confluence Opawa Taylor river

2) Dog ban Pollard Park

Reason

1) Responsible owners are to ensure their dogs
"gets adequate exercise"

2) Older owners exercising their dogs are
penalised by these proposals, particularly when
the stated areas are nearest to home

3) If the changes are influenced by cyclists
using the above stated areas, that should
have no bearing on changes for dogs,

4) I pay rates and Dog registration. My dog
and I do our best to respect people using
the above stated areas ie families exercising
the family dog(s) families using the
walkway for cycling, and all others using
this fantastic amenity in the middle of
our lovely town, Burnheim.

Education

The District Council should not be increasing restrictions

- 1) Along with dog control / registration, I would like to see dog control officers doing checks to catch offenders, ie Owners who do not collect dog debris, or unruly dogs running around.
- 2) There is a large percentage of cyclists who use the "footpath" along the reserve who don't adhere to "warn when approaching", don't move off the path to pass from behind.
- 3) I would like to see better education to walkers, dog owners, cyclists to enhance the respect to one another, instead of making life in this beautiful town more restrictive because of just a few who don't show respect to others
