

Dogs Off Leash Areas.

I have exercised my Dog in the Marshall Place Reserve Area which is a great Place for Dogs.

But I Don't always like being over there if there aren't other Dog + Owners there. especially if the Day is hitting Dusk.

The Monro St Access is more utilised With Lots of Dogs that my Dog loves to Play with.

Most People are considerate and their Dogs reflect that.

Occasionally cyclist go zooming past before you know it, a Bell on their Bike would be most helpful, as I have on my Bike I have seen a few Mobile Scooter owner's exercising their Dogs.

The Taylor River walkway is a great place and privilege for all

There are so many other places we can't let our Dogs enjoy.

My Dog is ~~a~~ not only a special friend But a great source of security in my home

- Dogs in Central Business District Area.
- No I don't think this is such a good idea.
- 1) Not all Dog owners pick up their Dog poop in Dog allowed areas, what is it going to be like in Town, Hot Day, Congested
 - 2) If I need to go to town my Dog stays home or he is left in the car with my Partner.
 - 3) I Don't fancy having to take his Drinking bowl and water with me
Nor Do I want to be cleaning up after he's pooped
And how do you propose for owners to Dispose of this in Town.
 - 4) As much as I Love my Dog, I would Like to shop at my ease.
 - 5) As I am now in my Senior years. Having to step around groups of people and their Dogs would be a hassle.
