To Whom It May Concern

I am writing in support of Little Footsteps staying on long term at the Taylor Pass site.

We currently live in the new subdivision at the end of Taylor Pass Road. While it's a great place to live, there isn't many if any educational facilities in walking distance.

My son is two and the timing couldn't have been better for a preschool to have opened close to this area.

The site is perfect for a preschool and is utilized so well for children to learn, play, run and grow up in.

I honestly can't imagine what other business or industry would use this site to it's potential.

We love that Little Footsteps are located out here.

The centre at Taylor Pass has had a positive effect on my family and I know it also has for others, the teachers and families in the area.

I truly hope you take this on board when making your decision.

Yours sincerely  
Melissa Stevenson
