Re: Renwick Community Hub Information Service

To Whom it may concern,

Destination Marlborough has been in discussions with the Renwick Community Hub regarding proposed visitor information and guidance at the Renwick Museum. While this will not be an official i-SITE for the region, it will provide information and travel support for locals and visitors alike, and to encourage more in-depth understanding of the Renwick area.

We are in support of this additional service at the Museum and we look forward to working with Renwick Community Hub to ensure information provided is accurate and in line with Marlborough's regional visitor aspirations.

Nga mihi
