Marlborough Sounds Community Vehicle Trust

To whom it may concern

Grey Power Marlborough supports the Marlborough Sounds Community Vehicle Trust in its work providing transport to and from Nelson Hospital.

This service allows all Marlburians to access the hospital services in Nelson which is 110 Km away from Blenheim.

At the moment the Trust offers a service which has been used by many people. It seeks to purchase a hybrid vehicle which today is a very valuable resource.

The service offered by the MSCV Trust is invaluable and demand is increasing.

This is a worthy cause, and one fully deserving of financial support, staffed and run as it is by volunteers.

Yours faithfully

Gayle Chambers
President.
